One of the most tril lant and or good women of this centure, is spending a few weeks of needed rest in Washington It is probable that during her stay have she will deliver a lecture on what her stay here she will deliver a lecture on what she curity styles "The Mormon Monsten." With a laudable purpose n view she spent two or, three years in Sait Lake, made a special and exhaustive sludy of the Mormon question, made copious extracts from the private books and papers of the church, and is probe by as well fortused as any person in the country with arguments which, when fully brought to national notice in her incisive style, ought to react upon the heads of men who have promigated the cankerous dectrines of Mormonism. It is hoped that she may prove a Sameon to pull out the pillars from tudes the Yormon temple. Unlike most lecturem she has not taken up this subject for the sake simply of gold, but because she thinks it one of the carkest pole on our national escutcheon. Muss Floid has heved an active life. A Missourian by birth, she was educated in plassacitations and Europe's and white talk it employed as intimate acquantances with Walter Savage Landor. During her absence she was European correspondent for two grominent newspapers of Boston, and the New Orleans, Pringume, afterwards was specially employed by the Springfield Rapublican. Soon after the civil war she became a contellutor to the N.Y. Industry Philadelphia Press, and London journals. Her contributions to the 4-tante Hondbly and other magazines have been, numerous. CHICAGO SOCIALISTS IN COURT

Ike Republican Benatorial Claimants of Chic Seated Without a Quorum-Starvation at Sea-Botes from Various Points.

INCINNATI, May 8 "Gutwardly there is very little apparent change in the strike s tuation. Lity employes have been voted ten hours pay for eight hours' work and a dember of Indi-t dual manufactories have made settlements for eight hours' work and a number of individual manufactories have made satisfements with their men but the great mass of strikera remain idle. There is but little indication of a strike on the streets. There are but few people in the streets and business seems to be progressing as usual. Orderly processions of strikera bave passed through the streets every day, but the rivery pronounced denunciation of violence, and justicularly of the socialistic methods, has given to the pulic a sense of freedom from dan gree of foit. Thus feeling has not been shared by the authorities for several days. The first regiment of the ohio hational function hands in green and the choic hational function has given to the ohio hational function has presented by the grown and the court house. Several hundred episcal policemen have been appointed. Safety organizations have been appointed. Safety organizations have been credered hore by he growerner. The explanation fer all this programation is mixeled-day for the first time. It is that the police commissioners here had discovered that the socialists to the number of 600 are organized and armed with effective rifless that they control have the manufactors of dynamite bomits that the one used in Chrisago was made bere and the, have need the number of the commissioners for the substitute of the apparently unusual precanitors fakes. Two Vete Messages from President lleveland.

The House Passes the Military Academy Bill -- Pa cific Coast Rotes-Another Seisure of Alance

Washington, hay 8—The president to-day sent to the house two veto messages. The first is as follows.

To the house of representatives—I return, without approval, your bill No 147, entitled "an art increasing the pension of Andrew of Hall." This is a bill to double the pension which the purion mensed therein has been receiving for a number of years. It appears from the report of the committee to which the bill was referred that the cair made by him for an increase of pension he teen lately rejected by the pension bream on the graved that the day receiving a pension commensurate with the dayres of disability found to exist.

The failing of I equently reversing by signal and amendificant decision of the bureau mestac by law with examination of pension claims, fully equipped for such examination, and which cought no to be suspected of any lack of fillerability to be veteral as allers is exceedingly questionable. It may well be doubted if a committee of congress has better opportunity than such agency to judge of the ments of his claim. If, I wever there is any lack of power in the pension bureau for full investigation it should be supplied. If the system adopted is madequate to de full justice to claim post it should be proceeded and if there is a want of sympathy and combined the bureau should be recreanized.

The disposition of concede the most generous trea meet to the disabled, aged and heady on one our reteams should not be restraized, and it must be admitted that in some cless justice and equity canno be attained without the charinable tenerouses of the government in favor of worthy objects of the care is indulted in, under fixed it.e. These conditions so ne the especial fixed read. These conditions so ne the especial of shall be favored in the grantity of sensions should be trace on the the grantity of sensions should be trace and exceptional in he nature of things if he is lightly dense, and upon slight occasion at havitants affected to the passage of clause by congress, which, thou their merits, could not survive the test of an examination by the passion bureaus, and whose only hope of success depends more upon sympathy, often a fist recited than upon right and justice, the a strumentally devised by law for determination of the sing the control of the strumentally devised by law for determination of the singular prejudice with covernied and discredited, and there is dat get that in the end propalar prejudice with covernied to the bounty of the government. A STICL NIMA ARRAY.

There have late " been presented to ma, on the same day, for approval, nearly 210 special bills granting and increasing pensions, and restoring to the pens on list the names of part as which for cause have been dropped. To all the execution of duty they were referred to the pension bureau for exemination and report. After the deby at satisfier necessary they have been returned to ma, which a few hours of the limit constitutionally provided for executive action. Two houdred and thirty-two of these bills are thus classified. Eighty-one cover cases in which favoral le action by the pension bursau was denied, by reason of the insufficiency of the leatingsy filed to prove the facts all gred. These bills have been approved, on the assumption that the c dina were districtions, and in the passage of the bills the government has walved full proof of to its.
